BEAR CUBS BEING BORN MONTH - JANUARY

# The Editor's Note

Dādánast'ádā (*How are all of you?*),

Tiyā gújā ānīst'ā (*I'm very good*).

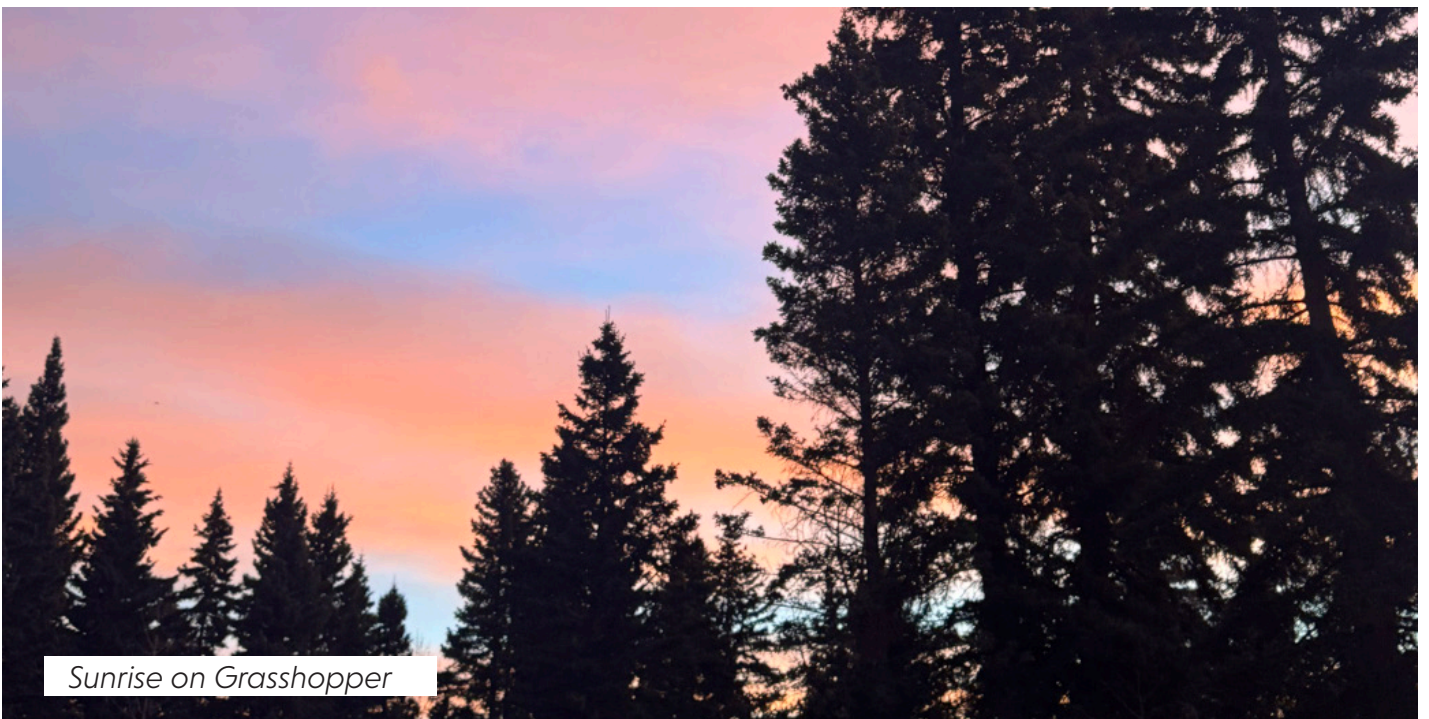

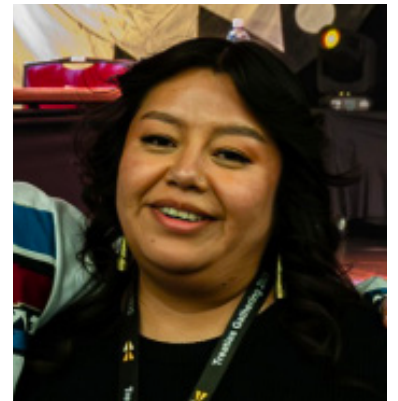

I hope you all had good holidays, and I hope your New Year is filled with opportunities, good relationships, and purposeful healing.

I want to acknowledge that Communications has completed its first year of publishing akiyi mitoo (twelve) issues of DÀ-HÍ! We learned a lot from each other in Communications, as well as learning more about the Nation as a team. As you have noticed, we have rebranded DÀ-HÍ so that it's more contemporary while still honouring protocol and historical values. I want to give thanks to our participants who contribute to DÀ-HÍ and our team for putting together this beautiful document. I also want to thank our readers for sharing and uplifting our Citizens and Nation residents.

As I mentioned before, all Citizens, Nation residents, affiliates, and our neighbours are welcome to contribute to DÀ-HÍ. If you want to mention a loved one, highlight an accomplishment, advertise a small business, or highlight a travel highlight, please email [submissions@tsuutina.com](mailto:submissions@tsuutina.com).

We will be publishing on the first Wednesday of every month starting in February 2026 to ensure we can complete and prioritize our legacy projects. With this new release date, the submission deadline for the DÀ-HÍ will be the last Friday of each month. Thank you for your understanding of the new timeline, and I look forward to seeing everyone's submissions throughout the year!

Nānīyīstsonī (*See you again*)!

## DEVELOPING POTENTIAL ACTION PLANS, NATION TO NATIONS: ◀◀◀◀

- ▶ Self-Determination - The right to determine our own pathway.
- ▶ Nationhood – It is our collective responsibility to govern our pathway to the right of self-determination. This is based on our own values and principles, language, culture, traditions, or any other way we determine. This would involve a Nations own laws and institutions of governance.
- ▶ Nation – A collective of First Nations that have historical commonalities, such as lands, peoples, culture, language, history, and governance co-existing as one.
- ▶ First Nation Laws – Guidance from the Peoples to govern themselves. Protecting our Inherent and Treaty Rights, inclusive of all Peoples.
- ▶ Seek guidance from our Elders.

## COLLECTIVE ACTIONS ON SOVEREIGNTY ◀◀◀◀

- ▶ The process is as important as the outcome in Nationhood.
- ▶ Historical continuity throughout generations, as we travelled Mother Earth:
  - ▶ Shared common territories, resources with others starting with ceremony, developed Nation to Nation trade agreements.
  - ▶ Collective sovereign approaches on federal and provincial legislation, regulations, policies that impact our way of life and rights (e.g., NRTA) and our natural assets.
- ▶ Lifelong learning initiatives on our histories, Treaties, and diversity Nation to Nation.

<i>Lands: Introduction</i>	
SECTION	DETAILS
Lands	Creator placed us on Mother Earth and gave us the inherent responsibility to protect all forms of life, to access and use all of the resources. We only use what we need and follow protocol to ensure that future generations benefit from it as well.

*OUR WORLDVIEW* ◀◀◀◀

**Natural Law is our inherent responsibility to Creator.**

- ▶ Our relationship with all forms of life is protected and regulated by our Natural Law.
- ▶ We ask permission from the animals, plants, minerals, rocks, waters, and spirits before we use places, harvest food, medicines, dig in the earth, hunt or fish for food or ceremonial purposes.
- ▶ We have a wholistic perspective on land use that protects and serves future generations.
- ▶ Our connections to lands (inclusive above and below) identify our responsibilities and right to determine and maintain our way of life.
- ▶ Our survival, our livelihood, and our sacred ceremonies and sites are reflected in the significance of lands and natural resources.
- ▶ Water is Sacred. Water is Life.
- ▶ The true spirit and the true intent of Treaties was in Peace and Friendship. To co-exist with the Queen’s settlers to the depth of a plough and that our way of life would not be altered.
- ▶ The true spirit and true intent of Treaties are as long as the Sun Shines, Grass Grows, and Waters flow. Everything is all encompassing.
- ▶ We did not cede nor surrender our lands, natural resources, territories, waters, or air when we entered Treaties.
- ▶ Like the ceremonies, our common teachings and connections are in 4.
- ▶ **Free Prior Informed Consent (FPIC) is the principle linked to Treaty norms, right to self-determination affirmed by Creator and our way of life.**

*An Art Piece Submission*

My daughter Lariah painted this canvas of herself dancing at the Samson Cree Nation Powwow. Through her painting, she expresses her creativity and passion for dancing; as well as her cultural values and beliefs as a young First Nations dancer.

## "Pow!"

An Animated Short

"Pow!" is an animated short that follows a young boy named Jake who goes to extreme lengths to try and charge his portable gaming device at a powwow. This short is a much watch for anyone who likes unique stories, animation, and just plain fun! "Pow!" can be found on YouTube for free, so if you have an extra eight minutes, I would highly suggest checking it out!

## Stranger Things

A Netflix Series

I started watching Stranger Things in 2017, and I anticipated every season since. It's very different from any other series I've watched, and I think Stranger Things is its own category. I'm a huge fan of 80's nostalgia, even though I was born in the 90's. It's like Goonies, but more science-oriented and more monsters. My favourite characters are Dustin, Erica, and Steve. I would explain more, but I don't want to spoil anything! I will say, I'm happy that a few main characters are representing the LGBTQ+ community during a time when it was still frowned upon.

I'm sad that it's over because it's such an intense and unique series. I will miss my mini watch parties, too. If you're looking for something else to stream, check out Stranger Things!

## The Blockbuster Year

Movies Coming Out in 2026

2026 is shaping up to be an incredible year for movies! From massively anticipated blockbusters like Avengers: Domsday and Star Wars: The Mandalorian & Grogu to epic originals such as Christopher Nolan's The Odyssey, there's something exciting for every movie fan. Personally, as a Disney fan and a History buff, I am most excited for these movies. The Odyssey has been an integral part of my story while I was finding my passion for ancient

history and ancient Greek mythology. The Odessey steered me towards pursuing my History Degree, so I am very excited to see this epic film.

There's even more to look forward to with crowd-pleasers like Project Hail Mary, The Super Mario Galaxy Movie, Spider-Man: Brand New Day, and Disney's animated adventure Hoppers. Once again, as a Disney fan, the Hoppers movie is another one I'm very excited about since the "Lizard, lizard, lizard..." viral moment came from this movie. With major releases spanning action, animation, and epic storytelling, 2026 is set to be a truly unforgettable year at the movies.

# Christmas in **Kodacolor 200**

BY RYAN RUNNING RABBIT

We love a new (old?) film stock! 2025 brought us photographers no shortage of new or recently revived film stocks. The analog boom is still thriving with 10+ new options. I picked up a few rolls of the new Kodak Kodacolor 200 and have some early thoughts about it.

First off, this is not simply another Gold 200 offering. With a slightly higher price point, this is a different shooting experience, unless you're a ColorPlus shooter, allegedly. The experts, the internet, those who like to say, have found that this stock renders nearly identically as ColorPlus with very subtle whitebalancing. Personally, I cannot compare the two; I haven't shot the other.

Kodacolor gives an impressive performance across varying conditions. Indoors, at night, in the snow, etc. Obviously, this daylight-balanced film does best in the daylight, but its versatility comes from a well-balanced temperature. It's not nearly as warm as Gold.

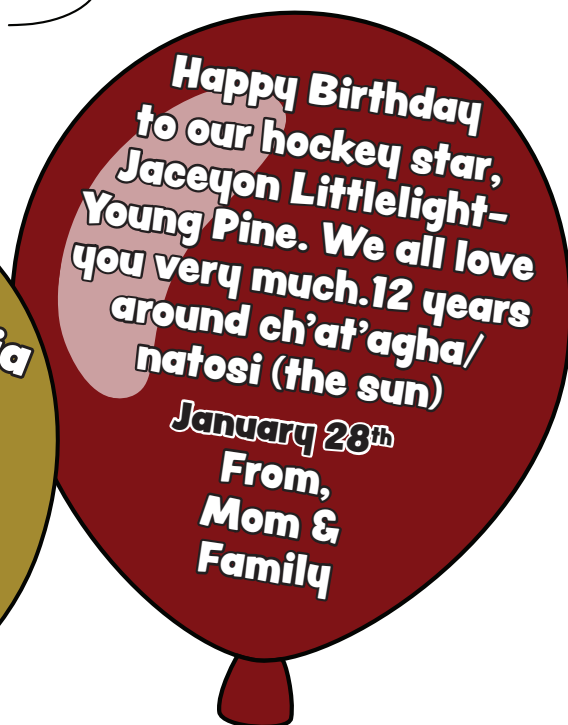

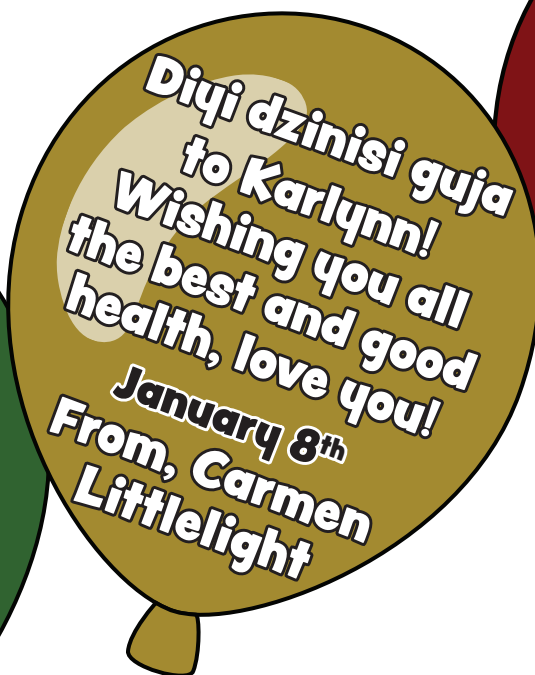

The darker tones don't wash out in a greener shadow. I'm really impressed with the colour and the grain. These images have come straight from the film lab. I would recommend this stock. I will shoot this again. My final image is one of my favourites from all of 2025.

Camera: Minolta Maxxum 7000

Lenses: 50mm

Photos shot by Ryan Running Rabbit and developed in a domestic lab.
