Invites you to our

National Indigenous Connectivity Conference

February 26-27, 2026

Grey Eagle Event Centre,
Tsuut'ina Nation, Calgary

3777 Grey Eagle Drive, Tsuut'ina,
Alberta, T3E 3X8

ABOUT NICI

The National Indigenous Connectivity Initiative (NICI) works alongside First Nations, governments, and industry partners to ensure equitable access to broadband and spectrum, empowering communities to lead in the digital age.

We are actively partnering with industry, stakeholders, and Rights and Title holders in:

- **Advocating for Digital Equity** – Ensuring policy and funding decisions prioritize Indigenous connectivity.
- **Securing Spectrum for First Nations** – Supporting community control over telecommunications infrastructure.
- **Empowering Communities** – Providing tools, resources, and partnerships to build sustainable digital solutions.

At NICI, we believe that every First Nation deserves the opportunity to thrive in the digital age. Together, we can close the connectivity gap and build a stronger, more connected future for all.
