Subject: Early Childhood Language Program Assessment - Invitation for Head Start Parents to Participate

Dzinisi Guja Parents and Caregivers,

Sizi Steven Crowchild at'a, and I have been invited to assess the Early Childhood Tsuut'ina Language Program that your child is part of.

The purpose of this assessment is to better understand what is working well within the program, identify opportunities for growth, and support the continued strengthening of language learning for children and families. This includes reviewing program materials, speaking with staff, and hearing directly from parents and caregivers. Your voice is an important part of this process.

If your child has attended Head Start within the last 3 years, or plans to attend within next two years, I would like to invite you to complete a short survey to share your experiences, perspectives, and ideas. Feedback will be confidential and used to inform programming. If you are unable to complete a survey, you also have the option to complete a short telephone interview as well.

As a thank you for your time, the first 20 participants who complete an interview and/or survey will receive a \$50 Sobey's gift card.

To complete a survey, please visit: <https://www.surveymonkey.com/r/KQGJCLZ>, or if you would like to have a telephone interview, please contact me at 403-970-4320.

Thank you for taking the time to support this important work. Your input will help strengthen nihigunaha and programming for current and future children.

Siyisgaas,

Steven Crowchild
