### **2025 Summer Student Employment**

**Danita'ada,**

**I wanted to provide a quick update regarding the Summer Student Employment Program.**

**As a reminder, we are no longer accepting applications for **Adult Students**, as the deadline was **April 30th**.**

**For High School Students, we have a total of **45 spots, with 23 still available**. Please keep in mind that once all spots are filled, applications will close—even if it's before the official deadline. I'll send out another update once all positions have been filled.**

**Lastly, the Summer Student Program is open to all community members who are currently enrolled in school, university, college, or Bullhead, and who are maintaining passing grades.**

**Thank you for your continued support. If you have any questions, feel free to reach out.**
