

Title: Infrastructure (Water & Sewer) Pipe Layer

Description: Thompson Construction Group has immediate openings for Water and Sewer Pipe Layers supporting our Infrastructure division's land development and subdivision projects in the Edmonton area.

Responsibilities:

- Work with Excavator Operator to cut grade
- Installation of graded pipe, manholes, catch basins and any other associated structures
- Installation of pressurized pipe and associated fittings including valves, tees, bends, and hydrants
- Service pipe installation
- Monitor and ensure backfill of installed pipe
- Expose existing utilities
- Participate in daily safety meetings and adhere to all company safety policies and procedures
- Report all incidents, near misses, and equipment damage to site supervision
- Maintain effective communication with supervisors and crew members
- Work collaboratively as part of a construction crew to meet project timelines

Qualifications:

- Minimum 2 years of experience in the water and sewer industry
- Minimum 18 years of age
- Reliable transportation to and from site
- Ability to work extended hours, including up to 12 hours per day, Monday to Saturday
- Valid Class 5 Driver's License is considered an asset
- Ability to perform physically demanding work in an outdoor construction environment

Additional Information:

The above statements describe the general nature and level of work being performed by individuals assigned to these positions. They are not intended to be an exhaustive list of all responsibilities, duties, or skills required. Employees may be required to perform duties outside of their normal responsibilities from time to time, as needed.

These are temporary, full-time positions based in the Edmonton area and are project specific. Employment duration is dependent on project requirements and operational needs.
